This Company is formed for the purpose of working the lease and mineral rights of the Great Caffagh Copper Mine, which has been worked under peculiar circumstances, after about £40,000 had been expended in sinking and in testing. Ore formerly sold upon the cliffs of this mine, which was essentially profitable.
The selected portion of ore that has been raised from more than workings, which will serve to the Company now resuming the work of the old mine, is of the finest description, the large setting of copper already exposed, so that large and valuable returns can now be made at an immediate outlay of capital.
As an illustration of the richness of the ore, it may be mentioned that the selected portion of ore now at Ballycroy, is coming ore to market, at the Swansea Market, December 8th, 1859, realized £7,500 10s. on 640 tons, being at the rate of nearly £15 per ton, 15 tons of which were fully per cent. of pure copper.
The present capital of the Company is £20,000, in 40,000 shares of £1 each; which 20,000 shares will be reserved to the Shareholders of Caffagh, and 16,000 shares will be issued to the public, when the work of the mine are established, any shareholder for convenience, and the value of the existing shares by upwards of 50 per cent.
The Contractors to be paid for the purchase of the lease and property coming to 20,000 in money, and 10,000 paid-up shares. The Contractors to be paid for working the mine, and for the valuable minerals raised, at the rate of £1 per ton of twenty-one cwts. Sundry, 1-12th, £40 per month.
The Contractors, with machinery and gears, as well as forms of tenders, &c., &c., &c., may be inspected at the Office of the Company, or at the Mine.
The Directors are empowered to reserve the Shares of Lords, Members of Parliament, and Gentlemen connected with the Mining interest in the neighbourhood, may be open at the choice of the Company.
